Thanks for flagging this David. I think the paper could use a little editing based on the good information you sent in response to my questions. I've annotated a couple of areas where we could edit in the attached. Once revised, please go ahead and send to OW.

Thx

Tomás Torres

Please see request from OGWDW about the CES project briefing paper. I was prepared to tell Bill that there is no update to the timeline presented in the briefing paper, but since Bill indicated a conversation between Tomás and Jennifer last week, I wanted to check in first. Please advise. Thanks, David

Hey David,

I am sure that Kate and Calvin gave you a heads up on this while you were out. OW is interested in a briefing on the CES project. Attached is the current version of the briefing document that was put together. Jennifer would like to move forward with the briefing document and not use the ppt that was created. I believe that Jennifer recently had a conversation with Tomas about this (I believe it was last Friday). We wanted to check-in to see if there are updates to the timeline for the project.

If you all could send us a revised document tomorrow afternoon, I would really appreciate it. I have asked to send it up to OGWDW-IO by COB tomorrow.

Cheers
Bill
